OFFICE: (302) 368-7888

FAX: (302) 737-5009

WEEKLY MAINTENANCE

Your weekly maintenance will vary depending on frequency of use, hardness of water and if you keep up with your daily maintenance.

- ✓ **Glass:** Use a Master Shower Doors' Approved product (see Products on reverse side) to remove water spots and soap residue buildup.
- ✓ **Hardware:** Remember to clean using a back and forth motion. Do not use circular motions.
- ✓ **Plastic Drip Rail:** Just slip it off the bottom of the door and use any approved glass cleaning product. It is not recommended to put these in the dishwasher because the heat may deform the plastic.

**KEEP YOUR
SHOWER ENCLOSURE BEAUTIFUL!**

DAILY MAINTENANCE

Just 1 minute of daily maintenance will prevent the buildup of water spots and soap residue.

- ✓ **Glass:** Simply squeegee the glass after each use. This will take less than 1 minute! If your glass has ShowerGuard or Diamon-Fusion, squeegeeing is still recommended.
- ✓ **Hardware:** Just wipe off with a microfiber cloth.

**JUST A FEW MOMENTS A DAY
WILL KEEP IT SPARKLING!**

PRODUCTS

Keep your Shower Enclosure Beautiful!

	<u>NAME</u>	<u>PURPOSE</u>	<u>FREQUENCY OF USE</u>
